

AKASH BASNET

Security Researcher | Certified Ethical Hacker (CEH) | Web Application & API Security
Sunnyvale, CA | (619) 214-8415 | basnetakash46@gmail.com | linkedin.com/in/akashbasnet | akashbasnet.com

PROFESSIONAL SUMMARY

Certified Ethical Hacker (CEH) and bug bounty researcher acknowledged by 15+ organizations, including Google, Apple, Microsoft, and Meta, and 1st place winner of the Pacific Hackers Pre-DEF CON CTF. Backed by 6+ years in IT infrastructure, including leading a government ministry's response to a live ransomware attack. Targeting penetration testing, application security, and security operations roles.

TECHNICAL SKILLS

Offensive Security: Penetration Testing, Web App & API Testing, Vulnerability Assessment, Recon, Subdomain Enumeration, OWASP Top 10, XSS, SSRF, SQLi, IDOR

Tools & Systems: Burp Suite, Kali Linux, Wireshark, Fortinet, Linux, Windows, macOS, Python, Bash, Git/GitHub, ServiceNow, Jira

Defense & Identity: Incident Response, Endpoint Hardening, Patch Management, Entra ID, Active Directory, MFA/SSO, Conditional Access, Intune, JAMF Pro

Networking: TCP/IP, DNS, DHCP, VPN (GlobalProtect), Cisco Switches & Routers, Wi-Fi

SECURITY RESEARCH & RECOGNITION

- Acknowledged by Google VRP (rewarded), Apple, Microsoft MSRC, Meta (rewarded), Intel, Huawei, Lenovo, Nokia, McAfee, ESET, BBC, Harvard, Cambridge, and others.
- 1st Place, Pre-DEF CON CTF (Pacific Hackers Association); Top 50 of 500, Wiz CTF; Top 500 of 5,000, U.S. DoD CTF; DEF CON and Black Hat USA attendee.

PROFESSIONAL EXPERIENCE

Technical Support Analyst (Internship)

Jan 2026 – Jul 2026

NVIDIA | Santa Clara, CA

- Resolved account lockouts, MFA/passkey resets, and conditional access failures in Entra ID and Active Directory.
- Reimaged Windows, macOS, and Linux laptops, enrolled them in Intune and JAMF Pro, and ran baseline and QA checks.
- Troubleshoot GlobalProtect VPN, Wi-Fi, and software access issues for walk-in and remote employees at the Tech Lounge.

Customer Service Specialist

Dec 2024 – Present

Radiate Hospitality | Palo Alto, CA

- Handle hotel front desk guest requests and issues, and prepare shift reports for guests and staff.

Security Researcher (Freelance)

2022 – Present

Bugcrowd | Remote

- Test web apps and APIs on public and private programs, including NASA's VDP, for XSS, SSRF, SQLi, IDOR, and access control flaws.
- Map attack surface with recon and subdomain enumeration, confirm findings in Burp Suite, and write reproducible reports with remediation guidance.

IT Manager

Jan 2021 – Aug 2022

Ministry of Law, Justice & Parliamentary Affairs | Kathmandu, Nepal

- Led containment of a live ransomware attack, isolating endpoints and recovering data with no permanent loss.
- Provided cybersecurity support to federal offices at Singha Durbar, including the Office of the Prime Minister.
- Enforced security policies, access controls, backups, and patching across servers, Cisco and Fortinet networks, and Microsoft 365.

IT Manager

Jul 2016 – Jan 2021

Global Link Technologies Ltd. | Kathmandu, Nepal

- Rolled out endpoint security baselines, patch cadence, and access controls across 50+ devices, reducing incidents and downtime.
- Saved \$25K+ per year by bringing IT support in-house, renegotiating vendor contracts, and optimizing licensing.

CERTIFICATIONS

Certified Ethical Hacker (CEH), EC-Council 2019 | Google Cloud Cybersecurity 2025 | Fortinet Network Security 2024 | Google IT Support Professional 2025 | Microsoft IT Support Specialist 2025 | Anthropic AI Fluency & Claude 101 2025

In progress: Burp Suite Certified Practitioner (BSCP) via PortSwigger Web Security Academy; OffSec OSCP+ (PEN-200)

EDUCATION & TRAINING

Bachelor of Business Studies (BBS) | Tribhuvan University, The Times International College, Nepal | 2019

Bachelor of Computer Applications (BCA), Attended First Semester | Tribhuvan University, Nepal Mega College | 2022

IT Support Training | Year Up United (Online) | Aug 2025 – Dec 2025
